SHE WON'T BE RIGHT MATE – Mental health fundraising event.

Our annual car show and family day in the Yarra Valley.

Yarra Glen Racecourse, Yarra Glen, Victoria, Saturday November 23rd 2024 from 10-3pm.

Our annual fundraising event for mental health is back on for 2024. “She won’t be right mate” supports local health services and initiatives to get the funds to those who need it most. This year our event will be bigger than ever with a car show and family day with activities, entertainment, food trucks and local businesses showcasing their wares in support of reducing the stigma associated with discussing mental health. 100% of our profits made on the day is donated directly to these important local service providers.

This year we are raising money for Eastern Health. Eastern Health has services across the largest geographical area of any metropolitan health service in Victoria, covering 2,816 square kilometres. We provide a range of emergency, surgical, medical, and general healthcare services, including maternity, palliative care, mental health, drug and alcohol, residential care, community health and statewide specialist services to people and communities that are diverse in culture, age, socio-economic status and healthcare needs.

“Having been through my own experience with mental health in 2018 which shook me to the core. I felt it was important to do take direct action. I decided to create a fun & family friendly event and car show, where it would be a safe place to openly discuss mental health, for people to connect with others – particularly men, who find it difficult to start the conversation and admit they may not be doing ok.” — MARCUS REEVES, EVENT ORGANISER & OWNER OF MARWOOD BUILDING GROUP.

We raised \$18,000 in 2022 and \$25,000 in 2023. This year, our fundraising goal is \$30,000. We are still looking for sponsorship and businesses for long term partnership in 2024 and beyond. We encourage you to join us in what promises to be our biggest car show to date and a great family day out in the picturesque Yarra Valley. And what better way to do it, then while supporting the local services who support us, Eastern Health.
